A. Measure Your Feet

1. Place your right foot on a blank piece of paper, which should be resting on a firm surface.
2. Holding a ruler up against the heel draw a mark to indicate the end of the foot.
Do the same at the toe.
3. Firmly holding a pencil vertically trace the outline of the foot.
4. Take the measurements of the foot with the tape held firmly and record.
5. Note any problems or irregularities with your feet. The more information, the better the fit.
6. Repeat with the left foot on the reverse side.
